

The Compass is the main manual and handbook for Pilots Officers and volunteers working with all ages of Pilots. Copies are provided to each new company.

In the latest version of 'The Compass':

Getting Underway looks at what Pilots is all about, offering guidance on how to set-up and register a company, as well as information needed further down the line on safeguarding, officer training and so on.

Faith and Spirituality sits at the very core of Pilots as the organisation aims to support and assist children and young people through the questions and challenges of life and faith, with love as the ultimate value. This section helps companies to support children and young people in making informed choices about what is important to them and enable them to reach their full potential.

Crests are awards in a wide range of areas which Pilots can work towards, from author to artist and philosopher to ice-skater. They allow Pilots to develop their knowledge and skills in all sorts of ways. Prayer is an overarching theme for every Crest, with each having a prayer, meditation or reflection activity to complete. Crests are organised into five categories; Interest, Learning, Overseas, Talent and Service. When put together with Prayer, these spell PILOTS!

Games advice and suggestions mix old Pilots favourites with new, popular and innovative offerings from local Pilots companies, as well as links to a Pilots online library of games (coming soon) to make possibilities, quite literally, endless!
