

Dice and Bookmarks

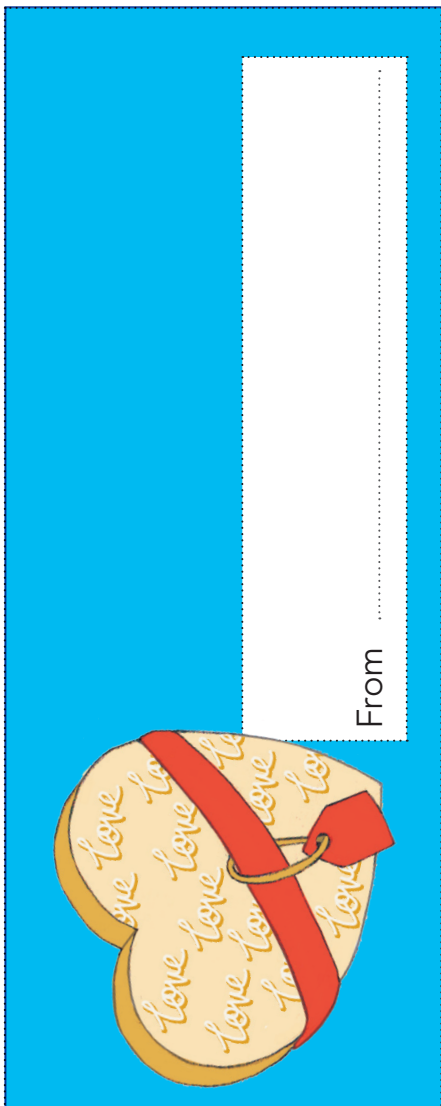

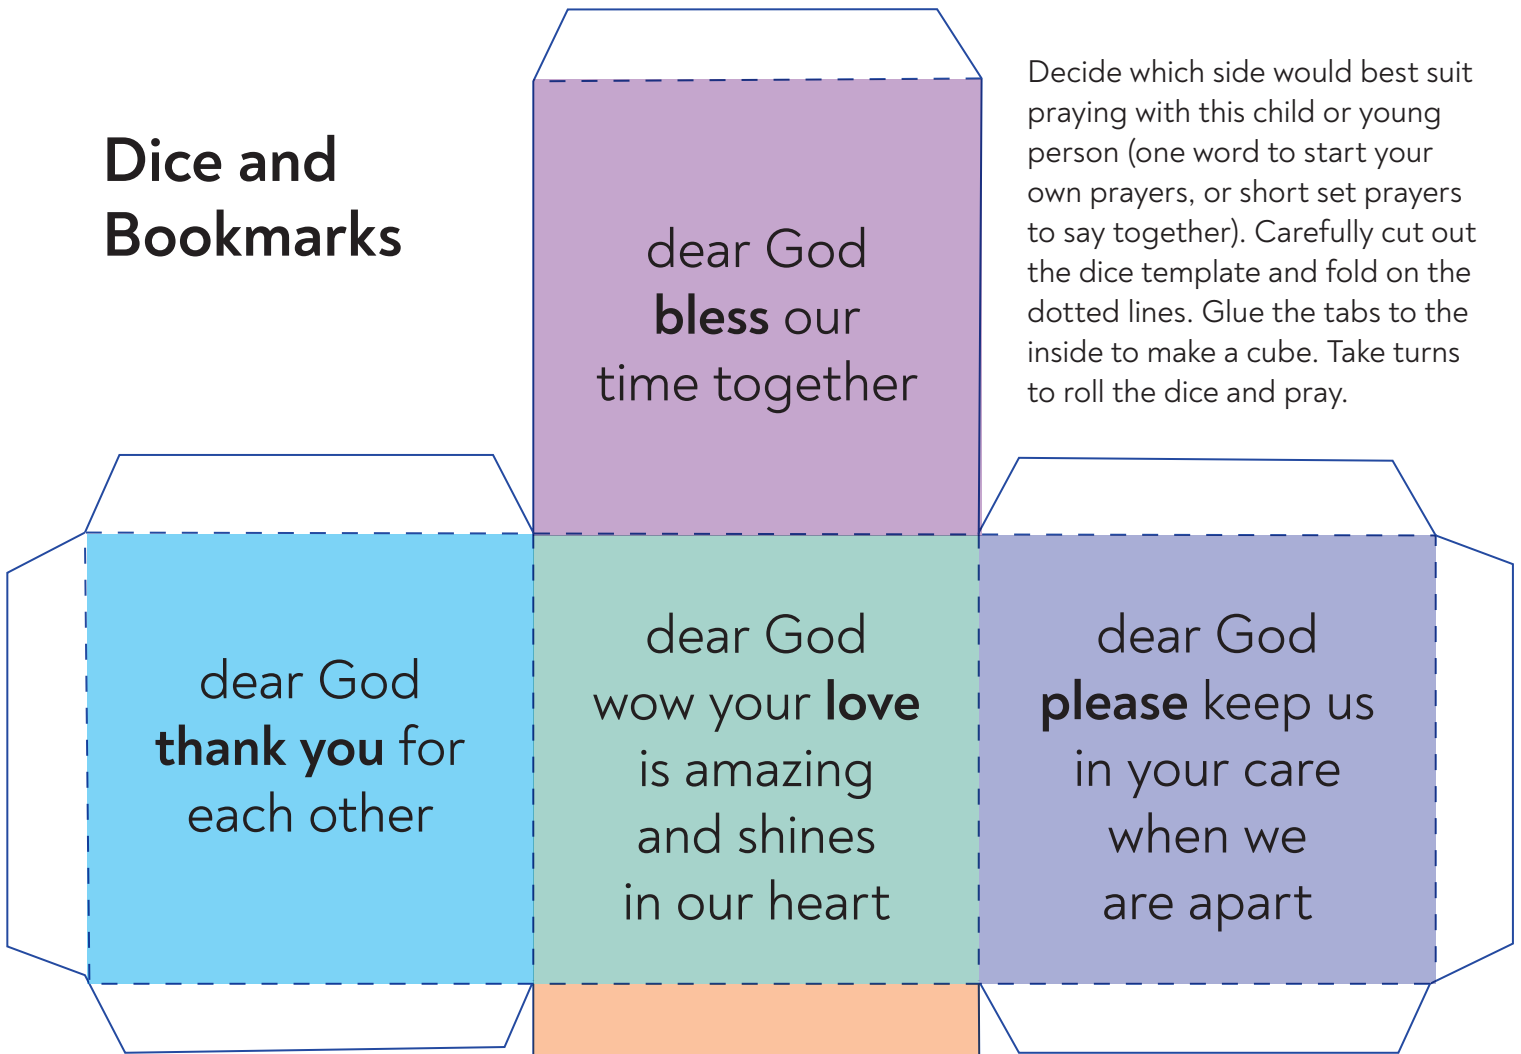

Decide which side would best suit praying with this child or young person (one word to start your own prayers, or short set prayers to say together). Carefully cut out the dice template and fold on the dotted lines. Glue the tabs to the inside to make a cube. Take turns to roll the dice and pray.

Carefully cut out the templates and create a bookmark for each other. Put their name on one side. Think of something the other person gives you that you are grateful for, and write or draw it, then sign your name on the other side. Then swap bookmarks and use!
