want to tell you all a - bout my God.

We've travelled in our time machine to somewhere that we've never been. We've landed in a different time; out of our craft we have to climb to see what's happening around. Now we are safely on the ground, someone my age has looked my way. I wonder what they want to say?

Chorus:

**Who are you? Hello, how do you do?
The clothes you're wearing, they look rather odd!
Hello, hello. Let's talk before you go:
I want to tell you all about my God.**

My mum and Dad, they woke me up, "We've got to leave now. Hurry up!" I packed a bag and crept outside: from Pharaoh's army we must hide and follow Moses to the sea. We only wanted to be free, and Moses is the bravest man; he'll lead us to God's promised land.

Chorus

As I was sleeping in my bed, I woke to words that someone said. Though who it was I couldn't see, what I heard was 'Follow me.' Eli said he hadn't spoken. I'm not quite sure why I woke, and then I realised with glee that it was God who spoke to me.

Chorus

Just as I was about to munch, disciples asked me for my lunch. Five loaves, two fish was all I had but Jesus, he seemed really glad. He blessed my food and said a prayer and 'Give it to the people there.' And when the eating was all done, my picnic filled up ev'ryone.

Chorus

Went for a swim, my friends and I: the river close to Philippi, and, while we swam, before our eyes some people came to be baptised, took off their shoes and waded in, said Jesus took away their sin. I wonder if that's really true, is that a thing that God can do?

Chorus

The city gates were open wide and on a donkey he did ride. We sang and cheered and laughed and waved because we knew we would be saved. Although he doesn't look a king, my mother said the stones would sing. So many of us shouting out, I wonder what it's all about?

Chorus
