

June 2026

MEMORANDUM

To: Stipendiary Ministers & Church Related Community Workers driving church owned cars
Copy to: PLATO and CYDOs
From: Mary Steele, Payroll Manager
Subject: Church owned cars

CHURCH OWNED CARS

If you drive a church owned car for private travel you need to be aware of the following:

HM Revenue & Customs has issued revised **Advisory Fuel Rates** which are effective from **1 June 2026** and apply when you use a church owned car for private travel. If a minister/CRCW reimburses the local church at a rate below the advisory rate the excess is treated as taxable income and is liable to PAYE deductions.

The rates highlighted in yellow are the ones which have changed since the advisory fuel rates were issued in March 2026.

Petrol	Petrol	Petrol	Diesel	Diesel	Diesel	Electric*
1400cc or less	1401 to 2000cc	Over 2000cc	1600cc or less	1601 to 2000cc	Over 2000cc	All
14p	17p	26p	15p	17p	23p	7p/15p

**This rate applies only to fully electric cars, not hybrids. Hybrid cars are treated as either petrol or diesel for this purpose.*

Note on electric cars

From 1 June 2026 the advisory electric rates for fully electric cars will be:

- 7p per mile for home charging
- 15p per mile for public charging

For journeys where a company car is charged at both public and residential locations, you can apportion the mileage based on how much charging happens at each place. The apportionment calculation should be fair and reasonable.
